

# RESEARCH EXCELLENCE PROGRAM FOR ASIA

The program covers tuition fee and accommodation for accepted students.

## **PROGRAM DATES:**

June 3–July 30  
(8 weeks)

## **APPLICATIONS DUE:**

March 15

## **HOW TO APPLY:**

Apply for this program through your home institution

Tel Aviv University invites exceptional young researchers from Asia to join us this summer for a once-in-a-lifetime experience. Throughout the 8-week program, you will engage in a genuine research project in one of TAU's labs under the guidance of a distinguished professor, enjoy leadership sessions with TAU's management, and immerse yourself in the vibrant cultural life of Tel Aviv — all while benefiting from a generous scholarship.

This uniquely tailored program is designed to strengthen your research skills, significantly bolster your CV, and serve as a pathway for future graduate/postgraduate studies, whether at TAU or around the globe.

**The Program provides access to 50+ lab placement opportunities in STEM, Humanities, Arts, and Social Sciences.**

## ELIGIBILITY & REQUIREMENTS

The program is designed for outstanding students of TAU's select partner institutions:

- Undergraduate students in their pre-final or final year of studies, and graduate students enrolled in research-focused degrees
- A minimum GPA of 80% (3.0/4.0 scale) is required
- Proof of English proficiency: IELTS 6.5 / TOEFL pBT 550 or iBT 79 / Cambridge B2 First, or a waiver (please refer to program website for details)
- Nomination by the International Office of home institution
- Online interview

## ABOUT TEL AVIV UNIVERSITY

Located in the heart of Israel's high-tech, business and culture center, Tel Aviv University (TAU) represents the country at its best – dynamic, innovative, cosmopolitan, and forward-looking.

The University is Israel's largest and most diversified institution of higher learning, with nine faculties and over 30,000 students, 1,200 researchers and 125 schools and departments across the sciences, humanities and arts.

Global in outlook and impact, and sharing Tel Aviv's spirit of non-stop discovery, the University brings together top minds to address the most pressing challenges of the 21st century through bold and collaborative solutions and teaching.
